

# HARWI PIRANHA

Vertical panel saw

# HARWI PIRANHA

Vertical panel saw

## BASIC - PREMIUM

HARWI Piranha

The **Piranha panel saw** from Harwi is the solution for customers with a less intensive sawing process. The Piranha is an **excellent choice** for sawing billboard panels, insulation panels or panels for the packaging or concrete industry. **DIY stores** have been using Harwi panel saws for more than 25 years. Good accuracy and user friendliness are some of the **advantages** why many customers **have already chosen our Piranha** panel saws. The standard electric moving back panel gives the Piranha a head start to all our competitors. Harwi has divided its models into a **Basic and Premium** version. By choosing three fixed models, we are able to provide and advise every customer with the best possible **sawing solution**, fast delivery and **good service**.

## Our mission

Through combining experience and craftsmanship with service and development, we strive for an optimal working environment in which safety, ergonomics and health come first.

The robust nature and the long service life of our machines characterize our passion for technology. Our core business is the delivery of standard sawing solutions in the wood industry. However we also use our expertise and knowledge to aid our customers in process specific sawing solutions.

## Our company

Harwi has been producing its sustainable sawing machines in Helmond in Brabant since 1960. Our specialization and expertise in the wood industry in particular has been ensuring satisfied customers for years.

Providing innovative sawing solutions within the Netherlands and abroad is the foundation of our organization. Within this foundation we prioritize user friendliness and quality.
